D.2	<b>Enumerator:</b> Record Respondent ID for this section	<input type="text"/>	Individual ID from Household Roster
Electricity requires several types of payments. There are three parts to the cost of electricity: connection, wiring, and monthly use. In other words, to use electricity you need to have a wire from a meter in your house to the pole first. That is the connection. You also need to have wires to connect appliances within your house to the meter. This is the wiring. Finally, to keep using electricity you must pay for what is used and measured by the meter, or it will be turned off, this is the cost of monthly use. I would like to ask you questions only about the first cost of connecting – getting a wire from the electricity poles to a meter on your house.			
If you could pay a “lump sum” price for an electricity connection, in other words, you are offered a price and a period of time to decide whether to take this price. If you decide to take the price, you have to pay all at once, after which you are immediately connected. As you answer the next few questions, assume that all other wiring fees and monthly service fees for using electricity, once you have the connection, remain the same as they are now.			
D.3	Would you be willing to pay $\{CF\}$ upfront for an electricity connection?		Yes.....1 → <b>D.9</b> No.....2
D.4	Would you be willing to pay $\{CF\}$ for an electricity connection, if you were given 3 months to make the payment?		Yes.....1 → <b>D.9</b> No.....2 Don't Know.....888
D.5	Would you be willing to pay $\{CF\}$ for an electricity connection, if you were given 6 months to make the payment?		Yes.....1 → <b>D.9</b> No.....2 Don't Know.....888
D.6	Would you be willing to pay $\{CF\}$ for an electricity connection, if you were given 12 months to make the payment?		Yes.....1 → <b>D.9</b> No.....2 Don't Know.....888
D.7	If the connection fee were waived, would you get a grid connection?		Yes.....1 → <b>D.9</b> No.....2 Don't Know.....888
D.8	Why would you not accept the offer?		Still cannot afford the wiring costs.....1 Do not need electricity.....2 Electricity service is unreliable....3 Monthly fee is too expensive.....4 Other, specify.....555
D.9	How much do you think it would cost to do all the internal electrical wiring in your house?		Local currency Don't Know.....888
D.10	Think about the amount you would need to spend each month for electricity, not the connection fee. How much would you need to spend each month for electricity?		Local currency Don't Know.....888
